Allwin Cold Chain Solutions Pvt. Ltd. is a specialized provider of end-to-end cold chain solutions designed for businesses handling temperature-sensitive products. The company supports secure logistics through solutions such as insulated pallet shipper systems and parcel shipper formats that help maintain stable temperatures during transit. With the use of freezing pads, ice pad solutions, and integrated temperature data logger technology, Allwin enables better control, visibility, and compliance across supply chains. Its focus on cold chain solutions for healthcare makes it a reliable partner for pharmaceuticals, medical devices, and critical healthcare products that require strict temperature management.

With a growing footprint in India's logistics ecosystem, Allwin Cold Chain Solutions Pvt. Ltd. continues to strengthen its cold chain solutions through innovation, quality materials, and process-driven execution. The company addresses complex distribution challenges by combining robust packaging, monitoring tools, and scalable cold chain infrastructure. By supporting industries such as healthcare, life

sciences, and food, Allwin helps protect product integrity, reduce temperature excursions, and ensure safe delivery across storage and transportation stages.
