Agri Business Incubation Centre (ABIC) - CCSHAU: NABARD, Hisar, appreciated and selected our business idea as an incubatee of making products using natural and eco-friendly materials.

Aticue Décor was launched in the year 2019 with the support of a handful of people.

Today, we have over 200 workers who are designing, and making beautiful baskets, table runners, bedside runners, beanbags, rugs, carpet, ottoman, poufs, etc., for enhancing the décor of home and offices.

Our commercial business idea also has a motive to empower women and create jobs for unskilled workers.

Aticue Décor is adhering to planet-centric design and supporting lives by generating income for the economically weaker section.
