BIZFLOW is a software and business automation company helping small and mid-sized businesses streamline operations and improve efficiency.

We build custom CRM systems, workflow automation tools, and industry-specific software solutions including lab management systems, billing software, and communication automation platforms.

Our key products:

- LabFlow – Lab management system
- Promobot – Automated WhatsApp and SMS response system
- BillFlow – Billing and business management software
- TableFlow – Restaurant management system

BIZFLOW focuses on creating simple, scalable, and practical solutions that reduce manual work and support business growth.
