Since its establishment in 2008, [China Forged Valves Co., Ltd.](#) has evolved into one of China's most distinguished suppliers of high-quality forged steel valves. Celebrated for innovative design expertise, we aspire to be your trusted global partner for comprehensive flow control solutions, serving diverse industries with reliable, high-efficiency products.

Our product portfolio features API 602 and API 608 forged steel valves, fully customizable to align with specific customer requirements. Encompassing pressure classes from 150 LB to 4500 LB and sizes ranging from 1/4 inch to 4 inches, we achieve an annual production capacity of approximately 1,000,000 units. Backed by sophisticated management systems, we maintain uncompromising quality and operational excellence across all manufacturing processes.

Quality assurance lies at the heart of our corporate philosophy: "Quality is the soul of the company." With authoritative certifications including ISO 9001, API 602, API 608, DNV, CE, and API 607 Fire Safe, we are unwaveringly committed to delivering zero-defect valves with enduring reliability. We continue to offer professional, stable, and value-

driven products and services to the global oil, petrochemical, gas, and power industries, and sincerely invite customers worldwide to cooperate for a prosperous future. [China manufacturer](#) offers high-quality industrial products with competitive pricing and advanced production capabilities.
