Coconut oil is a speciality of South India. Although it is widely available in the country, the most coconut farms are present in the South Indian states like Kerala, Tamil Nadu, Andhra and Karnataka. Pride Organic Exports is one of the best **coconut oil exporters in india**. We source our raw materials directly from the coconut farmers and we process the oil in cold pressers. As a result you get virgin coconut oil that is better in consistency, viscosity and healthier for use. We make cooking grade best quality coconut and ship it to all over India.
