[Deep Steel Center](#) started it's glorious journey in 1974 with a mission to contribute to the growth story of India's economy. Since the establishment of our company in 1974, it has grown as one of the leading enterprises handling Stainless Steel and Nickel Alloy materials in India.

Deep Steel Center is one of the leading importer, trader and supplier of Stainless Steel, high nickel steel, alloy Steel, carbon steel in form of pipe, fittings, flanges, fasteners, plate, round bar, wire, coils, etc. With the head office in Mumbai, Deep Steel is devoted to provide top quality and serviceability to all its customers with the little cause time.

We regard customer satisfaction as one of our key business goals along with the responsibility for highest quality & competitive prices. We have a strong network and sufficient supply sources that help us satisfy various needs of our customers on time.

We will be more than happy to have your feedback and suggestion to improve our services. We look forward to have your continuous support and encouragement to help us attain our goals.

Duplex Steel Ribs are solidified blends and also particularly usage safe. Microstructures of this steel are incorporate Ferrite and Austenite stages' blend. Thus, they contain the elements of both ferritic and austenitic treated Steel. It has a high-strength and heavenly protection from breaking down. Duplex Hardened Steel Spines have brilliant intergranular breaking down. It has a striking high security from crumbling breaking pressure even in sulfide and chloride conditions.

ASTM A182 Duplex Treated Steel S32205 Blind Spines Exporter, SAF 2205 Long Weld Neck Ribs, Duplex S32205 Slip on Spines, Duplex Steel S31803/S32205 Weld Neck Ribs, ASTM A182 Duplex Hardened Steel S31803/S32205 Ribs Provider, Duplex Steel S31803 Ribs, Duplex S31803 Ring Type Joint - RTJ Spines, Duplex S31803/S32205 Spines Producer in India.
