Gappeo.ai is an AI-powered recruitment, interview automation, and talent assessment platform designed to help companies hire faster and make better candidate decisions. It supports recruiters, HR teams, staffing agencies, enterprises, and growing businesses that want to streamline screening, assessment, interviewing, and candidate management.

The platform includes AI resume scoring, AI pre-screening, AI phone screening, LIVE AI video interviews, skill assessments, role-based tests, multi-format assessments, automated grading, and customizable testing. Gappeo also provides applicant tracking, candidate management, interview management, hiring automation, onboarding, performance tracking, visual analytics, and third-party integrations.

By combining AI-driven screening with structured assessments and recruitment automation, Gappeo helps organizations reduce manual effort, shorten hiring cycles, and manage both regular and high-volume recruitment more efficiently. It enables hiring teams to evaluate candidates based on skills, communication, job fit, and assessment

performance while maintaining a more organized, consistent, and data-driven recruitment process.
