Ihriday – Occupational Therapy Services in Vadodara

Pediatric Occupational Therapy

– Therapy for children with developmental delays, autism, ADHD, sensory processing issues, and learning difficulties.

Sensory Integration Therapy

– Helps children and adults with sensory modulation issues to better process and respond to sensory input.

Fine Motor Skill Development

– Improves hand-eye coordination, grasping, writing, and other precision-based activities.

Gross Motor Skill Training

– Focuses on body coordination, balance, posture, and movement-related skills.

Cognitive Rehabilitation

- Enhances memory, attention, problem-solving, and executive functioning skills for individuals recovering from injury or with cognitive impairments.

Activities of Daily Living (ADL) Training

- Supports independence in everyday tasks like dressing, grooming, eating, and toileting.

Hand Therapy

- Rehabilitation for hand injuries, fractures, or conditions like carpal tunnel and arthritis.

Therapy for Neurological Conditions

- Support for individuals with conditions such as cerebral palsy, stroke, multiple sclerosis, or Parkinson's disease.

Behavioral and Emotional Support

- Helps manage anxiety, social difficulties, and emotional regulation, especially in children.

Parent and Caregiver Guidance

- Training and support to help caregivers implement therapeutic strategies at home
