These are special pipe fittings fabricated out of nickel based superalloy with chromium and molybdenum, which are designed to work under the conditions of extreme corrosion and high temperatures. Metafit Piping Industries is one of the trusted Buttweld Fittings Stockists so the fittings are of ASTM B366 grade and comply with international grades such as UNS N06625 and Werkstoff Nr. 2.4856. These fittings are durable and strong and can be used in the aerospace, chemical processing, marine, and oil and gas markets of various regions such as USA, Europe, Middle East and Asia.
