We started our journey towards excellence in the year 2017. We are famous amongst the esteemed manufacturers of an exceptional quality of Mild Steel Pipes. The company has achieved remarkable growth, with its annual turnover reaching more than INR 70 crore. We have our manufacturing unit in Hyderabad, Telangana, and a customer base spanning over ten states. Our offered products Range consists of Mild Steel SAW Pipes, MS Fabricated Pipes, MS Fabricated Bends and Reducers, MS Base Plates and MS Dish Ends. We also offer services like Plate Bending, Cement inlining Guniting (Cement OutCoating), Epoxy Coating, Sand Blasting and Anti Corrosive Coating these products are manufactured using high class material in conformism with the Norms defined by the market Owing to the sturdy construction, Seamless Finish and resistance to corrosion these Mild Steel Pipes are highly demanded. Adding to this, these MS Pipes are tested on a set of standards before the final delivery of order.
