"Established in 1979, Kays Jewels is a leading manufacturer, exporter & retailer of jewellery. We at Kays Jewels believe in collective leadership. Dr. Ravi Kapoor and Mrs. Vijaya Kapoor are the Directors of the company.

The company initially started its export to the gulf countries and later branched out to countries like the United Kingdom and USA, The Caribbean Islands & Spain.

These markets wanted products with excellent quality control. To achieve this, Kays started its own manufacturing operations at Noida. In order to cater to the demand of jewellery in the international markets, Kays Jewels established a jewellery casting unit in the year 1996, at C88C, Sector 8 NOIDA (UP). This unit was set up with the best of practices and machinery and resulted in an increase of export turnover."
