MapMyChannel (MMC), developed by WebBee, is a leading multi-channel eCommerce integration platform designed to empower businesses by automating their order management, inventory, and fulfillment processes. This automation enables companies to scale effectively in today's competitive market.

MMC provides seamless integration and automation capabilities, simplifying the management of complex eCommerce operations through a single, user-friendly platform. It supports various sales channels, including Amazon, Shopify, eBay, and Walmart, ensuring that businesses can efficiently manage their operations across multiple platforms. By leveraging MMC's robust features, businesses can enhance their operational efficiency and improve their overall customer experience.
