Digestive problems can affect appetite, energy levels, sleep, and overall quality of life. Symptoms such as persistent acidity, abdominal pain, bloating, difficulty swallowing, or changes in bowel habits should not be ignored. Consulting the best Gastroenterologist in Vijayawada can help patients receive an accurate diagnosis and appropriate treatment before the condition becomes more complicated.

Why Patients Trust Nalini Gastro Center

Patients need more than temporary relief when dealing with digestive disorders. Proper evaluation, advanced diagnostic procedures, and a clear understanding of the underlying cause are essential for effective care. Nalini Gastro Center focuses on patient-centred treatment for conditions affecting the stomach, intestines, liver, pancreas, and digestive tract.

The clinic combines medical expertise with modern gastroenterology procedures to manage concerns such as acid reflux, inflammatory

bowel disease, liver disorders, pancreatitis, and gastrointestinal cancers. Patients receive clear guidance about their condition, recommended investigations, and suitable treatment options.

About the Doctor

Dr. Nalini Prasad Ippela, an experienced Gastroenterologist in Vijayawada, is an M.D., D.M. (Gastro) Gold Medalist with expertise as a therapeutic endoscopist and hepatologist. His training includes a fellowship in advanced endoscopy and clinical experience in gastroenterology and hepatology. He has also worked as a consultant gastroenterologist at leading hospitals in Vijayawada.

With extensive experience in digestive health, he evaluates each patient carefully and recommends treatment based on the diagnosis and individual medical needs. His expertise includes advanced endoscopic procedures and the management of complex gastrointestinal conditions.

About Nalini Gastro Center

Established in 2019, Nalini Gastro Center is a specialised gastroenterology clinic in Vijayawada offering advanced diagnostic and therapeutic care for digestive, liver, and pancreatic conditions. The centre is equipped to provide endoscopy, colonoscopy, ERCP, and other specialised procedures with a strong focus on accurate diagnosis and personalised patient care.

Gastroenterology Services Available

The clinic provides comprehensive care through services such as:

ERCP for bile duct and pancreatic conditions

Endoscopy and colonoscopy for detailed digestive tract evaluation

Treatment for GI cancers and liver disorders

Management of pancreatitis, GERD, and IBD

APC, EVL banding, dilation, metal stenting, and PEG tube procedures

Consult for Better Digestive Health

Ongoing digestive symptoms can interfere with everyday life and may sometimes indicate an underlying medical condition. Early consultation with a qualified specialist can support timely diagnosis and effective treatment. If you are experiencing persistent stomach pain, acidity,

bowel changes, liver-related concerns, or other gastrointestinal symptoms, schedule a consultation at Nalini Gastro Center for specialised evaluation and personalised care.
