[NXTEK](#) Yantra Pvt Ltd is one of the trusted [Helium Leak Testing Machine Manufacturers in Chennai](#), offering advanced helium leak detection systems for industries such as automotive, casting, HVAC, and pressure vessels. The process involves pressurizing a component or system with helium gas and utilizing a helium vacuum leak detector to pinpoint any potential leaks. Our machines are engineered with helium mass spectrometer technology, ensuring high sensitivity, accuracy, and fast cycle times. With both automated and manual solutions available, we deliver reliable and durable testing systems that meet stringent quality standards. Contact us today for customized solutions and a live demo.
