We are a professional industrial compliance consultancy specializing in Factory Act Compliance Services under the Factories Act, 1948. With over 20+ years of practical experience, we assist manufacturing units in achieving complete statutory compliance while avoiding legal risks and penalties.

Our services include Factory Plan Preparation & Approval, Factory License Registration & Renewal, Stability Certificate for Factory, Annual Return Form No. 27 filing, and end-to-end compliance management. We work closely with factory owners, HR teams, and management to ensure proper documentation, safety standards, and regulatory adherence as per State Factory Rules.

Our mission is simple — to make compliance stress-free, structured, and transparent so businesses can focus on growth and operations. We provide reliable guidance, timely coordination with authorities, and audit-ready compliance support across India
