OMC Power is a reputed renewable energy company in India. They work on rural development in all over India. OMC Power is spurring economic development among under-served rural population in India.

OMC Power is a new type of power company that extracts clean energy from renewable sources and use it to power both mobile networks and rural communities. They call it micropower small-scale energy with local generation and distribution. Micropower is the solution to one of the world's largest infrastructure challenges providing reliable,affordable and cost-efficient power where there is none today.
