Sona Machinery stands out as a leading Original Equipment Manufacturer (OEM) of rice mill plants, offering not only [turnkey rice mill solutions](#) but also Engineering, Procurement, and Construction (EPC) solutions for **Grain-Based Distillery Unloading and Milling sections**. Our product lineup includes Pre Cleaners, De-stoners, De-huskers, Rice and Paddy Separators, Whitener, Silky Polisher, Multi Grader, [grain handling machines](#), and Sortex Machines. We are dedicated to the continuous development of technologically advanced machinery tailored for various rice varieties grown globally. Our expertise encompasses processing diverse Indian rice types, including aromatic basmati rice, non-basmati medium grain, and short grain varieties.

As a distinguished member of the **OEM club**, we take pride in providing a complete range of turnkey solutions for modern rice processing mills and [grain-based distilleries](#). Our turnkey projects encompass capacities from **3 TPH to 16 TPH** for automated mills, with comprehensive support in engineering, erection, supervision, and commissioning. We meticulously customize milling plant machinery according to your needs, ensuring compatibility with the specific rice

variety, quality standards, and desired output.
