[StarAndDaisy](#) Being the parents of our adorable Sweetlings ourselves, we understand the universal requirements to help us shower our babies with secure love. From infancy to childhood, we understand what it takes for parents to raise their children under strict schedules of nourishment, well-being, and hygiene checks. Thus, StarAndDaisy has established itself with the wholehearted aim to aid the parents in their journey of exceptional parenting through providing baby supplies, tools that will assist them in comfortably and relaxingly caring for their kids without any signs of anxiety or chills of overwhelmingness.
