[The Dream Riders Group](#) is a pioneer in motorcycle touring, specializing in guided expeditions across some of the most breathtaking routes in India and neighboring countries. Founded with a passion for travel and riding, we have built a community of adventurers who seek more than just destinations — they seek life-changing journeys. From the snow-covered passes of Ladakh and the rugged beauty of Spiti Valley to the spiritual roads of Bhutan and the lush trails of the Northeast, we craft each route with precision, safety, and unforgettable experiences in mind.

Our tours are designed for both seasoned riders and first-time explorers. Each expedition includes high-performance Royal Enfield motorcycles, a professional crew with ride captains and mechanics, a backup vehicle with luggage support, comfortable accommodations, and local experiences that go beyond the usual tourist paths. We ensure that every rider gets the thrill of the ride without compromising on comfort or safety.

With over a decade of experience and thousands of successful tours, The Dream Riders Group has become a trusted name in the motorcycle travel community. We believe that every ride tells a story — and we're

here to help you write yours. Whether you're looking to tick Ladakh off your bucket list or take on an international road trip, we're here to guide, support, and ride with you.
