[Uttamenergy](#) aims at providing the finest quality, most technologically sophisticated, and most dependable solutions in co-generation plants, captive power plants, biomass-based independent power plants, and waste-to-energy plants along with energy & power equipment and services.

Known as one of the leading EPC and Turnkey Solutions Providers, Uttamenergy strives to continue its legacy and maintain its standards in this domain.

Uttamenergy Limited (UEL) was founded in 2012 to carry on the legacy of LIPI Boilers, which has over four decades of experience in the boiler industry. Headquartered in Pune, a major engineering city with the required talent set and technological competence.

We excel in the combustion of all sorts of solid fuels, including non-traditional and complex biomass. We develop plants that generate over 5000 tons of steam and over 500MWe of green energy every hour while utilizing less than 2000 tons of environmentally friendly, green

fuel.
