### Heavy Duty Shelving racks

A heavy-duty shelving system is designed for storing medium and heavy goods. It is a safe and adaptable system and easy to adjust as per the changing requirements. Heavy-duty shelving racks can store a wide variety of items and provide direct access to all stored items. These systems are based on the “person-to-product” principle and products are deposited and retrieved manually from shelves.

More importantly, heavy-duty shelving racks is versatile and makes excellent use of the warehouse height. The higher levels in the system can be accessed using equipment that lifts the order picker to the required.
