his versatile mobile meter reading app offers instant OCR meter reading and recording, invoice generation, invoice printing, and payment collection through mobile devices, attached to a Bluetooth printer, thereby reducing the time gaps between processes. The system is seamlessly integrated with SAP, from where the invoice data is fetched live, processed, and sent back, with payment details. Our spot billing system can be seamlessly implemented for a multitude of industrial domains to enable a faster, easier, and secure way to capture utility meter reading.
