TEGA has a database of 5000 conveyors and chutes having detailed record of their problems and their solutions. The in-house Research and Development team has assimilated this knowledge and effectively leveraged available technologies and software to come up with design solutions responsive to the market needs. The design team in TEGA

Conveyor Products undertakes the following activities.

Tega Industries Products are extensively used in Mineral Beneficiation industries. We offer a comprehensive solution to marquee global clients in mineral beneficiation. We have a wide range of products with a portfolio of specialized abrasion and wear-resistant products. Tega industries products are known internationally for wear-resistant rubber, polyurethane, steel, and ceramic-based lining. We offer over 55 mineral processing and material handling products that are widely used in mines and the mineral processing industry. Our products include chute and its liners, grinding mill liners, trommels and screen, hydrocyclones, and conveyor belts.
