In general, Distribution Transformer is used to reduce primary system voltages (2.4-34.5KV) to utilization voltages (120-600) They are all power Transformers in the sense that their purpose is to transmit power from one voltage level to another,

## SUPPLIER

Servo Voltage Stabilizer Manufactufrer

**Address**

B-101 , GALLI NO-1, Mandawali  
FAZALP,  
New Delhi 110092  
Delhi, India  
Sabir Khan

**Contact Person****Mobile Number****Email**

indiatechnosystems@gmail.com

We are the best manufacturer of Servo Voltage Stabilizer in India. We have an expert team that does make Voltage Stabilizer according to customer need. We have an expert voltage manufacturing team in India. We do make servo voltage stabilizers & Transformer manufacturers in India.
