Outdoor LED Video Walls are compatible with every changing weather because they are designed with Dip-Tech glass technology. Dip-Tech glass technology is a finished arrangement comprising of high-accuracy advanced glass printers, enduring and energetic earthenware inks, and simple to utilize picture handling programming. Whether it is a day or night, the outdoor video wall is visible from a far distance just because of high dynamic quality and visibility. Video walls are gaining high popularity due to its ability to provide essential information, streaming live occasions, advancing, and showcasing your image. Pixel pitch for the outdoor video wall is P4 mm, P5 mm, P6 mm, P8 mm, P10 mm are best suited. Outdoor video walls are generally installed at a high location in India and should be designed in a way so that it is easy to repair and maintain.
