Meet Tom Kelly - Founder of Charity Auctions Today. He has been one of our clients and it makes all the effort worth it when we hear such kind words from them. Tom hired two of our developers - one for frontend and backend each - to build his website from scratch including the web app for the auction platform. We worked hand-in-hand with Tom, and our expertise and his feedback steered the project to its desired destination on time.

Think Partner, Not Agency

[Acquaint Softtech](#) is a global engineering partner helping agencies, SaaS founders, and enterprises scale their development capacity with vetted remote developers. We provide dedicated Laravel, MERN, MEAN, Python, WordPress, WooCommerce, Statamic, Bagisto, DevOps, Project Managers, and full cross-functional teams starting at competitive hourly rates.

As an Official Laravel Partner with a 70+ in-house engineering team, we deploy fully vetted developers within 48 hours. Our clients use us to extend their teams, build enterprise applications, modernize existing systems, or accelerate roadmap execution without the overhead of full-time hiring.

We focus on high-quality staff augmentation, dedicated teams, and long-term development partnerships. Every engagement follows an NDA-backed onboarding process, ISO-aligned workflows, transparent delivery, and continuous communication.

What clients get with us:

- 48-hour onboarding for remote developers
- Scale from 1 to 20+ engineers anytime
- 70+ in-house developers across 10+ stacks
- 12+ month average engagement
- Proven delivery across 200+ global projects
- Expertise in SaaS, eCommerce, API development, modernization, and
